Dr. Jensen will play an extended prelude and postlude, and she will direct the Chancel Choir as well. Dr. Jensen is an amazing musician - especially at age 90 - so please plan to come and hear her this weekend!

Service Times Change — Although it feels like the calendar played a trick on us, NEXT WEEK is when Trinity English returns to its summer schedule: Worship services on Thursday evenings at 7 (in the Chapel), Sunday morning at 8 AM (in the Chapel) and at 10 AM (In the Sanctuary). No Sunday School during summer.

Parent Series — May 22nd 5:45pm - 7:00pm with Jessica Ryan, LCSW “Parenting With Mental Health In Mind” Doors open 5:00pm for mingling & refreshments Room 101W | trinityenglish.org for FAQs or email mmilne@trinityenglish.org

Trinity Theatre Performance — Join us May 29 from 6-8 for a curated performance called “Art and the Mind.” This performance will deal with some of the difficulties of depression, and is recommended for audiences 16 and older. Following the performance there will be a discussion with professionals about the relationship between the art and mental health.

Art Display — As a part of Trinity’s focus on May’s Mental Health Awareness month, local artist Tiny Clementine will have her newest piece #PostYourPills on display throughout the month of May. Please take some time to explore this work on the Wagenhals side of the Nave.

Fridays in May — From 12:10-12:40pm followed by a \$2.00 sandwich lunch.

You matter to us! — So, a reminder: if you or a loved one is in the hospital or moves to a care facility, we certainly want to know about it! The new privacy laws, however, mean we get a lot less information “automatically” than we used to, so it’s up to you to let us know where we can find you. Please call the church office whenever this type of ‘change of venue’ takes place, so we can be sure to connect with you.

Work on the Building — Trinity’s existing boilers are in the midst of being replaced through a generous grant from the Trinity Foundation. The existing boilers are early 1990’s vintage and endured a flood while they were located in the sub-basement portion of the building. The new replacement boilers are high efficient models with up to 98% Thermal Efficiency and will utilize PVC venting.
